Power Plant Tour Attendee: _____
(Name as listed on Driver's Licenses)

Ray D. Nixon Power Plant Tour Policy

Our policy is to ensure the safety of employees, visitors and facilities. Each tour takes approximately 1.5 hours. Please read the following information carefully.

1. Due to safety concerns, power plant tours are limited to 20 people.
2. Minimum age is nine years old or currently enrolled in fourth grade for all tours.
3. Organizations requesting a tour must provide a list of names of all tour attendees five working days prior to the tour. All adults (whether with an organization, or individually) must provide their home address and phone number. Adults (over the age of 18) must also provide government issued photo identification (i.e. driver's license, military ID) upon arrival. **If visitors show up for a tour and their names are not on the list or they do not have appropriate identification, they will not be permitted to tour the facility.**
4. No backpacks, briefcases, cameras, cell phones, video recording devices, etc. are allowed in any facility.
5. Appropriate dress, which includes long pants, closed-toed walking shoes, and clothing/accessories for expected weather, is mandatory for all tours. Due to safety concerns, visitors with inappropriate dress will not be able to tour the entire operational facility. We provide additional safety equipment, when required, to tour a facility (i.e. hard hats, safety glasses, ear protection).
6. All tour participants must remain under the control and guidance of the tour guide. Any person or group deviating from the guided tour will be escorted from the facility.
7. Tour participants must adhere to all safety and site-specific requirements of each facility. Failure to follow safety requirements will terminate the tour.
8. Special requests are considered on an individual basis, including persons with physical disabilities and requests to visit facilities other than those listed above. Tours outside the designated hours will not be considered during winter months.
9. We reserve the right to cancel and/or deny any request.

Security Policy

We have implemented a Security Threat Management Plan that aligns with the National Homeland Security Advisory System. Our mission is to provide a secure environment for our community and employees by ensuring utility infrastructure is protected through effective security planning. When the security threat level for the nation, the community of Colorado Springs and/or Colorado Springs Utilities is raised to Security Threat Level Orange or Red, we will cancel all tours until the threat level is lowered to yellow or below.

For more information regarding the tour, please contact Mike Garland at 719-495-2283 or email garland@mvea.org. Please email the completed top portion of the form to Cortney Davis at davis-c@mvea.org or mail your form to:
